- ⑥ End the application

75/100 ✓

Pseudo code :-

Begin :

Display "login/Register"

If user is new then

Register user

Else

login user

End if

If login is successfully then

Display Home page

Display Health Routine Blogs

Display meditation & Exercise

Read users selection

Display selected context

END IF
LOGOUT
END

Intelligent Job Assistant App

②

Algorithm:

- ① start the application
- ② display login & Register page
- ③ verify the users login details
- ④ Enter and save personal information
- ⑤ Entered & same personal information
- ⑥ Display the application confirmation message
- ⑦ logout & stop the application.

Pseudo code:

BEGIN

Display "login/Register"

If user is new THEN

Register account

ELSE

login

END IF

If login is successfully then

Enter personal Details

Display Available Jobs

```

upload Resume
Select Preferred Job
Apply for selected job
Display "Application submitted successfully"
END IF
END

```

③ smart parking slot Booking APP

Algorithm:

- ① start the application
- ② Display login & Register option
- ③ Authenticate the user with valid credential
- ④ Retrieve the count of available parking
- ⑤ Display all free parking space
- ⑥ Allow the user to select a preferred parking slot

Pseudo Code:

Begin

Display "login/register"

IF user is new then

Register account

else

login user

End if

IF login is successful Then

update parking available

display Booking Confirmed

END IF

END

④

online Body Fitness App

Algorithm:

- ① start the app
- ② display login & sign options
- ③ open the user Dashboard
- ④ open display Fitness Blogs for workout
- ⑤ display the diet planner
- ⑥ display fitness workout
- ⑦ logout & stop application

Pseudo Code:

Begin

display "login/signin"

If user is new then

Register Account

else

login user

End if

If login successfully then

Process Payment

Active Subscription

End if.
